JavaScript

Js is dynamically typed.

C++ is statically typed.

let obj = {};

obj: x = 42;

```
class Obj {  
    public: int x;  
};
```

obj obj;

obj: x = 42;

obj.y = 17;

obj.y = 17;

PROPERTY LOOKUP

```
obj.x;
```

JavaScript

```
let obj = {};
```

```
obj.x = 42;
```

```
obj.y = 17;
```

C++

```
class Obj {  
    public: int x;  
};
```

```
Obj obj;
```

```
obj.x = 42;
```

```
obj.y = 17;
```

JS is dynamically typed.

C++ is statically typed.
